

A SCALEDLEARNING BOOK

Data Quality for AI

Clean, complete and contextual data for models and agents

By Jonathan Davis

Garbage in, garbage out, now at machine speed. Practical methods for measuring and improving data quality so that models, LLMs and agents can be trusted.

WHAT YOU'LL LEARN

- Measure data quality continuously
- Fix data problems at the source
- Improve the context that LLMs and agents retrieve

CONTENTS

01 The cost of bad data in AI
02 Dimensions of data quality
03 Measuring quality continuously
04 Fixing data at the source
05 Quality for LLM context and retrieval
06 A data quality operating rhythm

Edition preview. The full edition will be delivered to this email address when released.
