

A SCALEDLEARNING BOOK

# 33°

## *Where Innovation Ideas Come From*

**By Jonathan Davis**

At 33 degrees, just above freezing, the ice begins to give and the water starts to move. Ideas work the same way. A short, practical look at where innovative ideas really come from: the moment of thaw when frozen assumptions loosen, conversations warm up and new thinking starts to flow, and how teams and AI can create more of those moments.

### WHAT YOU'LL LEARN

- Recognize where new ideas tend to come from
- Spot the moment of thaw when a stuck problem starts to move
- Use conversations, outsiders and AI to spark ideas
- Turn a promising idea into a quick experiment

### CONTENTS

01 Why ideas come from the side, not the front
02 Changing the angle on a problem
03 Edges, outsiders and borrowed patterns
04 Conversations that spark ideas
05 AI as an idea partner
06 Turning a spark into an experiment

**Edition preview.** The full edition will be delivered to this email address when released.
