

A SCALEDLEARNING BOOK

100 AI-Agile Teams

A playbook of 100 agile team patterns for pairing people with AI agents

By Jonathan Davis

Agile teams will soon include AI agents, but there is no single right way to combine them. One hundred practical AI-agile team patterns, from a solo expert with a research agent to whole service teams with agent crews, each with roles, handoffs, oversight and signs that it is working.

WHAT YOU'LL LEARN

- Match the right human-agent team pattern to the work in front of you
- Define roles, handoffs and oversight for each pattern
- Notice when a pattern stops fitting and evolve it
- Spread successful patterns across many teams

CONTENTS

01 Why agile team design is the real AI question
02 How to read the 100 patterns
03 Patterns 1 to 25: experts and their agents
04 Patterns 26 to 50: product and delivery teams
05 Patterns 51 to 75: operations, service and support
06 Patterns 76 to 100: leadership, governance and learning teams
07 Choosing, combining and evolving patterns

Edition preview. The full edition will be delivered to this email address when released.
