

A SCALEDLEARNING BOOK

Outcome-Driven AI

Beyond the Feature Factory

By Jonathan Davis

Shipping more features faster, now with AI, is not the same as making a difference. How to point AI and agents at outcomes instead of output: define the change in behavior you want, let AI help measure it continuously, and redirect work toward what actually moves customers and the business.

WHAT YOU'LL LEARN

- Spot the signs of a feature factory and its hidden costs
- Define outcomes as observable changes in customer and team behavior
- Use AI and agents to measure outcomes continuously
- Redirect roadmaps, funding and governance toward outcomes

CONTENTS

01 Life in the feature factory
02 Outcomes over output, in the age of AI
03 Defining outcomes people can see
04 AI that measures what matters
05 Redirecting work with agents and evidence
06 Funding and governing for outcomes
07 Leaving the factory for good

Edition preview. The full edition will be delivered to this email address when released.
